

Shukur Huseynli

Frontend Developer

✉ huseynlisukur000@gmail.com ☎ +99450 670 27 56 📍 Baku, Azerbaijan

Knowledgeable in user interfaces, responsiveness, debugging processes, and able to work independently with HTML, CSS, JavaScript & React technologies. Loves learning new things in the technology field. Also effectively self-manage during independent projects, as well as collaborate in a team setting.

Core Competencies

• HTML5 & CSS • JavaScript • TypeScript • React • Next.js • Redux • React Query • Axios • CSS Modules • TailwindCSS • Shadcn UI • MySQL • Node.js • RestAPI • Firebase • Git • Jira • Figma • Adobe Photoshop • MongoDB • Mongoose • Prisma ORM

Technical Skills

• Technical Support • Web development • Search Engine Optimization (SEO)

Experience

Frontend Developer (Next.js, React.js)

February 2024 - May 2024

Company: Timesoft

*During the internship I helped to develop a **company registry system**. The company registry system is crucial for maintaining accurate and accessible business records, supporting legal and financial compliance.*

- Contributed to the company's codebase
- Collaborated with team members to ensure high-quality code and best practices
- Implemented new features, such as **2 separate pages for company's products** and resolved bugs to enhance system functionality
- Participated in code reviews and provided constructive feedback
- Engaged in continuous learning to stay updated with the latest frontend technologies

Frontend Developer

September 2023 – December 2023

Company: Avroa Group

- Developed web app for **filtering 700+ products** using React and TypeScript
- For building precise dashboard page I used various components from **Shadcn ui** library, such as, Pagination, Table and etc.

Frontend Developer

January 2023 - May 2023

Company: MonoFi

- Primary Responsibilities at MonoFi: Building company website according to Figma design with the collaboration of other developers.
- Quantifiable Accomplishments: Actively engaged in code reviews and provided constructive feedback to **improve development practices by 20%**.
- Key Hard and Soft Skills Utilized: Strong code debugging skills and proficiency in testing to create test cases, developed communication and presentation skills when presenting findings to the team.
